Quality Indicators

The quality management plan of the project has been in great accordance with the partnership, partners, budget, budget allocation and other strategic, financial, quality objectives of each work package. Individual work packages individually were defined in quality criteria for the accomplishment of the objective. Each team has the criteria, job, task, responsibilities and objectives. In general, all the quality objectives have been met and the team worked towards the completion of the project partners, all the relevant activities carried out in the project have been considered successfully in a very satisfactory level of quality.

Results of the quality assessment

Evaluation of project management and meetings

The results of the evaluation of project management do not differ significantly between the two assessment periods (2009/2010-2011, 2011/2012-2013).

The general assessment of the quality of the project management is positive, there are no negative remarks about the partnership and its coordination.

All partners agree that:

- The working meetings have been frequent enough
- They are satisfied with the meetings
- The coordinating team has a very good attitude
- The work packages are effectively managed by the lead partners of each WP
- The skills and expertise of the project partnership is properly utilized to meet the objectives of the work packages
- The work plan has been respected and the changes to the work packages have been discussed and agreed by the partnerships

Quality of the results	95

Final evaluation of the transnational cooperation

All the partners are satisfied with the quality of deliverables. They all request and rely on the skills and expertise of the WP leaders. The partnership is very experienced in project management and some delays in the initial start-up were managed effectively without influencing the quality of projects.

There were no significant problems or difficulties mentioned. It should however be noted that there is a significant degree of creativity and innovation among the partners responsible for the learning context and its rapid development.

All the deliverables of the projects have been considered successful, in a satisfactory level of quality, based on the qualitative and quantitative criteria. The expectations of all partners have been met and there is a general belief that the project outcomes could be further exploited with multiplied impact on the target groups.

Evaluation methodology

The evaluation plan proposed in the transnational cooperation agreement.

Project partners

Results of the final evaluation

Partners have responded as the questionnaire, providing their feedback before the production of this newsletter and have given their consent to the dissemination of the results of the final report on the end of the transnational cooperation's lifetime, using the evaluation questionnaire of the project.
