The EnEf consortium launched an online Company Survey to identify the needs of SMEs in the construction sector. Take part in the survey by filling in the questionnaire and by giving your contribution to the development of an effective and comprehensive training plan, based on the real needs of companies and allowing meaningful practical on-the-job learning. We would be most grateful if you would help us with our research. This survey should take approximately 10 minutes to complete and all individual responses will be treated as strictly confidential.
