Download the fourth EnEf newsletter here:

The screenshot shows the front page of the fourth EnEf newsletter. At the top right is the EnEf logo with the tagline "Enabling Efficiency in the building sector in sustainable markets". Below the logo is a photograph of a group of approximately 15 people standing in a room, some in business attire and others in more casual clothing. To the left of the photo is a sidebar with the question "What do you like about our learning system?". The main content area features several partner logos and brief descriptions:

- The EnEf consortium:** "The EnEf consortium has implemented the necessary and required set of skills to perform the assessment activities and ready the objectives of the project, involving all the partners in the value chain necessary to implement the training, contents and platform and make assessment. More specifically, a consortium."
- Innovate:** "innovate - A research and innovation center focused on developing state-of-the-art customized programmes and innovative training modules and tools."
- IEET - Institute of Energy Efficient, Environmental and Indoor Climate Technology:** "IEET is a research institution, specialized in energy efficiency and indoor climate technology, based in Denmark. IEET is involved in the implementation of programme areas such as climate analysis of cities, based in Berlin, Germany. www.ieet-dk.dk/enef/"
- ERGOS - Regional Development Agency:** "with a consistent experience in the field of energy, ergonomics and project management methodologies based in Italy. www.ergos.it/enef/"
- VIQINTech:** "VIQINTech SA - An applied research centre for insurance."
- ICCS - Institut für Bauwirtschaft und Betriebswirtschaft:** "Institut für Bauwirtschaft und Betriebswirtschaft, University of Regensburg, Faculty of Economics and Management, Institute for Construction Economics and Management, based in Regensburg, Germany. www.ics.uni-regensburg.de/enef/"
- EDUCATIS - Institut für Bildungswissenschaften:** "EDUCATIS is a research and development center for education and training, based in France. EDUCATIS is involved in the field of education and training, research and development, and innovation, including e-learning, distance learning and training."
- IES - Institut für Energietechnik, Umwelttechnik und Sanitärtechnik:** "IES is a research and development center for energy, environmental and sanitary technology, based in Austria. IES is involved in the field of energy, environmental and sanitary technology, research and development, and innovation, including e-learning, distance learning and training."
- IBS - Institut für Bauwirtschaft und Betriebswirtschaft:** "IBS is a research and development center for construction economics and management, based in Austria. IBS is involved in the field of construction economics and management, research and development, and innovation, including e-learning, distance learning and training."
- IESB - Institut für Energietechnik, Sanitärtechnik und Bauwirtschaft:** "IESB is a research and development center for energy, sanitary and construction technology, based in Austria. IESB is involved in the field of energy, sanitary and construction technology, research and development, and innovation, including e-learning, distance learning and training."

On the right side of the page, there are three columns under the heading "What can we do to make it better?":

- "We are working hard to make our training programme even better!"
- "We are in continuous self-assessment to understand what we are doing well."
- "We are also creating a series of guides (e.g. guide for the evaluation tool etc.)"

At the bottom right is the European Union flag and the text "European Commission Building Learning Programme".

Including:

- The evaluation process
- Criteria for assessment
- Findings from our Evaluation Survey
